Software Development Experience

IT/Oxygen Enterprise (MTU), Houghton, MI November 2012 – Present

Target Mobile Android Development Team

App allows users to create shared lists displayed on cards similar to Google Now. Parse is used as the backend for local accounts and lists. Login and product information is retrieved from the Target API. Developed under Jira/Agile framework.

MHacks – PinHUD Winter 2014

Project included web view HUD of top pins to be displayed in stores as well as companion Android app that used NFC to get store and board information to compare store pins to user pins to create a shopping list.

Internship Experience

Frontier Communications, Fort Wayne, IN June 2013 – August 2013

IT Intern - Operations Monitoring

Worked closely with team of 4-5 people to ensure that the Frontier Communications infrastructure was kept stable. Daily duties included AS400 tapes operations and reporting bank drafts as well as monitoring various alerts for host/servers in the BPPM alert monitoring software.

Northeast Indiana Regional Partnership, Fort Wayne, IN July 2012 – August 2012

Event Intern

Worked with Vision 2020 and Millennial 2020 to prepare for Spark Tank event. Prepared activities and helped to coordinate event. Contributed to Facebook page and event website blogs. Worked sign-in table at event.
